Selekcija domaćih maslinovih ulja, masline i kruh

Maslinovo ulje je oduvijek bilo i hrana i lijek. Tradicionalno se u prehrani koristi kao dodatak jelima ali se često konzumira kao zasebno jelo. Ovom prilikom Vam želimo približiti okuse našeg kraja kroz četiri vrste ulja: ulje oblice iz naše prozivodnje ekstradjevičanske kvalitete, Torkul, Drobnicu i Lastovku.

NAŠE DOMAĆE MASLINOVO ULJE
proizvodi se od lokalne sorte maslina s područja gornjih sela dubrovačkog primorja. Prošlogodišnja berba od koje smo dobili ulje koje predstavljamo ima izražajnu voćnost dok su joj gorčina i pikantnost na približno jednakoj razini.

TORKUL
ima svih pet svojstava: voćnost, fluidnost, pikantnost, gorčinu i slatkost, u sličnom-skoro istom intezitetu.
Torkul se odlično slaže sa svim jelima.

DROBNICA
je primarno pikantna, izražene voćnosti, fluidna je, gorčine skoro da i nema a isto tako i slatkosti. U njoj dominiraju note zelene rajčice, lista rajčice, mediteranskog bilja...
Drobnicu bismo preporučili za mesna jela, biftek s njom je odličan.

LASTOVKA
sama po sebi je primarno gorka, fluidna je i voćna, pikantnost joj je skoro na nuli a slatkost blaga. . U njoj dominiraju note oraha, mediteranskog bilja, rikule...
Lastovku zbog svoje izražene gorčine preporučamo s plavom ribom-tuna se odlično ljubi s njom.

Osim domaćeg maslinovog ulja u jelovniku možete pronaći i organske proizvode iz naše poljoprivredne proizvodnje. Ponosni smo jer smo uspjeli zaokružiti organsku proizvodnju povrća te proizvodnju domaćih proizvoda od istih namirnica po tradicionalnim receptima s plasmanom u naše restorane.

Local olive oil selection, olives and bread

Olive oil is used as food and medicine for a long time. It is used traditionally in kitchens as meal supplement but also, very often as a delicious meal itself. We are using this opportunity to introduce to you some local flavors: extra virgin oil from our own production and Torkul, Drobnica, Lastovka.

OUR OWN OLIVE OIL

is made from a local olive sort from Dubrovnik primorje region.
Last years oil which you are tasting at the moment has a pronauncet fruit aroma and its piquancy and bitterness are on almost the same level.

TORKUL

has all five olive oil characteristics: fruity aroma, fluidity, piquancy, bitterness and sweetness in almost the same intensity.
Torkul is a perfect match for all dishes, meat, fish, desserts….

DROBNICA

is primary piquant oil, with pronounced fruity aroma. It is fluid, it's almost not bitter at all and its sweetness as well is not pronounced. In it you can sense a note of green tomato, tomato leaves and Mediterranean herbs…
Drobnica is perfect with meat dishes – especially beef steak …

LASTOVKA

it is primary a bitter oil,it has fluidity and fruity aroma. Its piquancy is almost not detectable and sweetness is low. In it you can sense a note of walnut, Mediterranean herbs, rocket salad leaves… Because of its bitterness we would recommend it with blue fish – especially tuna fish.

Besides our own olive oil you can find in the menu organic products from our agricultural production. We are proud to have managed to complete the circle from producing organic vegetables, making the home made products using the traditional recipes and placing them into our restaurants.
